能力概述

- **AI产品端到端落地**：具备AI产品全链路 探索与落地的完整闭环经验；擅长通过用户搜索意图识别与分层策 构建体系化AI 产品架构，并精准制定设计承接策略。
- **AI Native工作流**：以AI能力为边界重构工作流程——从 Skill化的经验沉淀、vibe coding AI插件提效80%，到 MiniDouyin 快速试错平台、AI自动化巡检，形成 ”设计–验证–运维” 全链路AI化闭环。
- **AI技术理解与产品转化**：理解 Embedding数据向量化、RAG检索增强生成架构、及意图识别等AI基础原理；能够参与大模型选型、训练与评测机制制定，寻找技术边界与用户体验的最佳平衡点。
- **独立规划与数据驱动**：具备独立规划并高效落地业务线产品设计的能力。擅长前置探索可行性方案，坚持数据驱动思维，能将复杂的业务逻辑与用户场景转化为高效的产品策略。
- **跨团队协同推进**：长期跨业务、算法、研发团队协作推进 AI 产品落地，具备识别关键阻塞点、拉齐多方目标、保障项目快速上线的实战经验。
- **全平台设计经验**：兼具 B端/C端、App/Web 端、大屏/折叠屏 等全平台的规范化设计与交付经验。
- **技术栈**： 精通 Codex、Figma、Protopie、After Effects (AE) 等核心产品设计与开发工具。
- **语言能力**： 英语可作为熟练工作语言 | 大学英语六级 (CET6) 503分 | 雅思 (IELTS) 6.5分 | 国际汉语教师经历

工作经验

字节跳动·抖音 | AI产品设计师（C端）

2023–03 至今 | 3.5年 | 上海

AI搜索 | 泛化 & 交易搜索意图探索与承接

- **从0到1构建AI智能画布**：主导AI泛化智能画布生成质量评估体系建设，从零制定多维评估标准与模板规范，沉淀出可复用的 AI 内容质量评估框架与标注体系，驱动模型输出品质提升；同步将AI融入工作流，个人/团队大幅提效 80% 。
  > 项目结果：带动抖音主动搜LT +2.75%，换query率–1.88%；形成可复用的 AI 内容质量评估框架与标注体系，为后续模 型迭代与 A/B 验收提供标准化基准。
- **泛意图AI产品化探索**：聚焦"用户意图识别 → AI 直达承接"核心链路，分意图前置探索产出设计方案 20+
  > 项目结果：85% 成功进入 A/B 实验验证并持续迭代，同步沉淀 LLM 搜索场景产品化探索方法论。
- **交易意图AI体系化承接**：通过用户行为数据分析，对交易用户进行多维度意图分层（信息探索/比价决策/即时购买等）识别不同意图类型的差异化承接诉求，多轮打磨设计方案，跨算法/业务/研发团队协同推进项目联合落地。
  > 项目结果：带动抖音交易搜索换query率–2.65%，GMV提升1.89% 。
- **组织荣誉**：荣获 ByteDance Spot Bonus 设计之星，多次绩效 字节范Excellent，产出M+

多端适配 | 折叠屏搜索提效创新设计

- **创新设计策略落地**：解决折叠屏搜索效率低体验差、分屏能力未被有效利用的问题，提出「动态双列布局」设计策略，实现「即搜即显、边选边看」的无缝交互体验，大幅提升抖音大屏搜索体验，相关技术发明专利已提交申请。
  > 项目结果：折叠屏搜索消费时长+2.34%；LT 30+12.82%

58同城·房产 | 体验设计师（B端）

2020–03 至 2023–03 | 3年 | 上海

设计推动 | 协同多方 主动推动设计改版、体验优化

- 通过业务实际场景调研，发起首页改版等自发项目，推进15+优化点。定性定量设计验证，业务操作效率提升23.8%。
- 首次沉淀「业务流转体验分析」「业务角色分析」等设计资产，建立与业务高效沟通长效机制。
- 搭建用户满意度监测体系，持续监测满意度同时对关键体验问题分析优化，使业务核心场景处理效率提高30.5%。

设计规范 | 参与业务线PC端与移动端设计规范搭建

- 主导APP & PC 端设计规范搭建。以设计组件为基础，结合业务特点搭建页面模板。优化产品开发协同方式，较原有同类需求协同方式提效80%，助力企业降本增效。

教育经历

全日制硕士 | 东华大学 – 交互设计方向

2017–09 至 2020–03 上海

发表3篇脑机交互BCI方向国际会议英文论文，美国工程索引（EI）收录

公费交流 | 台湾实践大学 – 工业设计系

2016–01 至 2016–10 台北

全英文授课 | 排名 3/73

全日制本科 | 东华大学 – 产品设计系

2013–09 至 2017–06 上海

排名 1/56 | 校优秀毕业生 | 保送硕士研究生

Core Strengths

- End-to-end AI product delivery: Lead discovery, architecture, and design execution from user-intent analysis to launched experiences.
- AI-native workflow: Codify expertise into reusable skills, use vibe-coding plugins to improve efficiency by 80%, and build MiniDouyin and automated QA loops for a design–validation–operations cycle.
- AI-to-product translation: Apply knowledge of embeddings, RAG, intent recognition, and LLM evaluation while balancing technical constraints with user experience.
- Independent planning and data-driven design: Turn complex business logic and user scenarios into clear, testable product strategies.
- Cross-functional delivery: Partner with product, algorithm, and engineering teams to remove blockers, align goals, and launch quickly.
- Multi-platform design: Design experiences across B2B and B2C products, including mobile apps, web, large-screen displays, and foldable devices.
- Tool stack: Codex, Figma, ProtoPie, and After Effects.
- Languages: Professional English; CET-6 score: 503; IELTS 6.5; certified Mandarin instructor with teaching experience.

Experience

ByteDance · Douyin | AI Product Designer, Consumer

Mar 2023–Present | 3.5 yrs | Shanghai

AI Search | General & Transaction Intent

- AI Canvas, 0-to-1: Defined generation-quality metrics, evaluation standards, templates, and annotation frameworks; raised team productivity by 80% through an AI-native workflow.
- > Impact: Increased Douyin active-search LT by 2.75%; reduced query reformulation by 1.88%; built a reusable AI quality framework.
- Standardized model iteration and defined A/B test success criteria with a repeatable benchmark.
- General-intent AI: Mapped the “intent recognition → direct AI answers” flow and explored 20+ design concepts.
- > Impact: Moved 85% of concepts into A/B validation and continued iteration; documented an LLM search productization playbook.
- Transaction-intent AI: Segmented users by behavior (exploration, comparison, and purchase) to tailor each handoff.
- Refined the experience alongside algorithm, product, and engineering teams through launch.
- > Impact: Reduced Douyin transaction-search query reformulation by 2.65% and increased GMV by 1.89%.
- Recognition: Received ByteDance Spot Bonus Design Star and repeated “ByteStyle Excellent” ratings; delivered millions of outputs.

Multi-device | Foldable search innovation

- Foldable search innovation: Introduced a dynamic two-column layout to make split-screen search faster by enabling side-by-side search and comparison; submitted a patent application.
- > Impact: Increased foldable-search time spent by 2.34% and LT30 by 12.82%.

58.com · Real Estate | Product Designer, B2B

Mar 2020–Mar 2023 | 3 yrs | Shanghai

Design leadership | Cross-functional redesign & UX improvement

- Researched real workflows and initiated homepage redesigns and 15+ improvements; qualitative and quantitative validation increased operational efficiency by 23.8%.
- Created reusable service-flow and role-analysis assets, establishing a stronger collaboration cadence with business teams.
- Built a satisfaction-monitoring loop and optimized key pain points, improving core-scenario efficiency by 30.5%.

Design system | Built PC and mobile guidelines

- Led the development of PC and mobile guidelines, created component-based templates, and streamlined the product–design workflow, improving delivery efficiency by 80%.

Education

M.S. | Donghua University — Interaction Design

Sep 2017–Mar 2020 | Shanghai

Published three BCI papers at international conferences, all indexed by EI.

Exchange Program | Shih Chien University — Industrial Design

Jan 2016–Oct 2016 | Taipei

Fully English-taught | Ranked 3/73

B.A. | Donghua University — Product Design

Sep 2013–Jun 2017 | Shanghai

Ranked 1/56 | Outstanding Graduate |
Recommended for graduate study
